## BIRD LIST

There have been nine Central Asia tours to date. Below is a list of all the species recorded on these trips.

As there is still no single recent guide covering the region, many recent taxonomic changes will not be found in older books like Flint's Field Guide to the Birds of Russia. A set of taxonomic notes explaining some of the species given below will be sent with the daily checklist nearer departure.

Column A = Number of tours this species has been recorded on.  
 Column B = Number of days this species was seen on the last tour.  
 Column C = Maximum daily count for this species on the last tour.

H = Heard only  
 (H) = Species seen, but most birds only heard  
 N = Nesting evident
