

• BIRD SPECIES LIST

TINAMIFORMES: Tinamidae

White-bellied Nothura (*Nothura boraquira*)

Great views on the access track to Bananeira through the cane fields on 14/06.

Spotted Nothura (*Nothura maculosa*)

Poor views of a roadside bird as we drove to Jeremoabo on 11/06.

PODICIPEDIFORMES: Podicipedidae

Least Grebe (*Tachybaptus dominicus*)

Seen in roadside ponds throughout N.E. Brazil and at Faz. de Serra Branca on 12/06.

PELECANIFORMES: Phalacrocoracidae

Neotropic (Olivaceous) Cormorant (*Phalacrocorax brasilianus*)

In a roadside marsh on the drive to Quixada on 09/06.

CICONIIFORMES: Ardeidae

Capped Heron (*Pilherodius pileatus*)

A single bird by a pond at Faz. De Serra Branca on 12/06 was something of a surprise.

Great Egret (*Ardea alba*)

In a roadside marsh on the drive to Quixada on 09/06.

Snowy Egret (*Egretta thula*)

In a roadside marsh on the drive to Quixada on 09/06.

Striated Heron (*Butorides striata*)

In roadside marshes and ponds on 08&09/06.

Cattle Egret (*Bubulcus ibis*)

In a roadside marsh on the drive to Quixada on 09/06.

ANSERIFORMES: Anatidae

White-faced Whistling-Duck (*Dendrocygna viduata*)

In a roadside marsh on the drive to Quixada on 09/06 and at Jeremoabo on 12/06.

Brazilian Teal (*Amazonetta brasiliensis*)

In a roadside marsh on the drive to Quixada on 09/06 and at Jeremoabo on 12/06.

White-checked Pintail (*Anas bahamensis*)

In a pond at Jeremoabo on 12/06.

Southern Pochard (*Netta erythrophthalma*)

Several in a large roadside marsh on the drive to Quixada on 09/06.

FALCONIFORMES: Cathartidae

Black Vulture (*Coragyps atratus*)

Seen regularly throughout

Turkey Vulture (*Cathartes aura*)

Seen regularly throughout.

Lesser Yellow-headed Vulture (*Cathartes burrovianus*)

The common roadside vulture; seen daily

King Vulture (*Sarcoramphus papa*)

Many birds seen at the Faz. De Serra Branca on 12/06

FALCONIFORMES: Accipitridae

White-tailed Kite (*Elanus leucurus*)

A couple of adults and one immature in the grassland adjacent to Bananeira Forest on 13&14/06

Snail Kite (*Rostrhamus sociabilis*)

An adult and immature eating apple snails in a roadside marsh on the drive to Quixada on 09/06

Crane Hawk (*Geranospiza caerulescens*)

Poor views of a bird at Baturite on 08/06.

Savanna Hawk (*Buteogallus meridionalis*)

Seen several times during the long drives through the caatinga of NE Brazil.

Roadside Hawk (*Buteo magnirostris*)

Fairly common; seen almost daily

Short-tailed Hawk (*Buteo brachyurus*)

Soaring over the Bananeira Forest on 14/06 and at Reserva Biologica de Saltinho on 16/06.

Zone-tailed Hawk (*Buteo albonotatus*)

Soaring over the Bananeira Forest on 14/06.

FALCONIFORMES: Falconidae

Southern Caracara (*Caracara plancus*)

Common.

Barred Forest-Falcon (*Micrastur ruficollis*)

A bird calling at dawn the Araripe N.F. on 10/06. gave some good flight views

American Kestrel (*Falco sparverius*)

Seen regularly throughout the trip.

GALLIFORMES: Cracidae

Rusty-margined Guan (*Penelope supercilialis*)

A couple of birds seen in the early morning along the trail at the Araripe NF on 10/06.

GALLIFORMES: Odontophoridae

Spot-winged Wood-Quail (*Odontophorus capueira*)

To our great surprise a speculative play of the tape brought forth an immediate ringing response from a small party of Wood Quail on the Trilha do Vale at Baturite on 08/06. Still hard to see we had eventually had one good if brief look at a couple of birds as they passed through a gap in the vegetation.

GRUIFORMES: Rallidae

Rufous-sided Crane (*Laterallus melanophaius*)

Another tough bird to see but good views at the pond edge near the entrance to our hotel in Baturite on 08/06.

Ash-throated Crane (*Porzana albicollis*)

We would have seen this bird were it not for the fact that we were too busy trying to dig out our 4WD stuck in the mud on the track to Engenho Cachoeira Linda on 15/06.

Common Moorhen (*Gallinula chloropus*)

In a roadside marsh on the drive to Quixada on 09/06.

GRUIFORMES: Cariamidae

Red-legged Seriema (*Cariama cristata*)

4 birds seen on the drive to Faz. De Serra Branca near Jeremoabo on 12/06.

Wattled Jacana (*Jacana jacana*)

In a roadside marsh on the drive to Quixada on 09/06.

CHARADRIIFORMES: Recurvirostridae

Black-necked Stilt (*Himantopus mexicanus*)

In a roadside marsh on the drive to Quixada on 09/06.

CHARADRIIFORMES: Charadriidae

Pied Lapwing (*Vanellus cayanus*)

Two birds on the muddy bank of a small river near Morada Nova on 09/06.

Southern Lapwing (*Vanellus chilensis*)

Seen regularly during the long drives across N.E. Brazil

CHARADRIIFORMES: Scolopacidae

South American Snipe (*Gallinago paraguaiæ*)

A roding bird seen flying high over the fields as we were busy trying to dig out our 4WD stuck in the mud on the track to Engenho Cachoeira Linda on 15/06.

COLUMBIFORMES: Columbidae

Rock Pigeon (*Columba livia*)

Seen a few times mainly in towns and villages.

Picazuro Pigeon (*Patagioenas picazuro*)

A few birds along the track to Faz. de Serra Branca near Jeremoabo on 12/06.

Eared Dove (*Zenaida auriculata*)

Seen and identified during a roadside stop on 09/06. Probably overlooked elsewhere.

Plain-breasted Ground-Dove (*Columbina minuta*)

Fairly common.

Ruddy Ground-Dove (*Columbina talpacoti*)

Common

Picuí Ground-Dove (*Columbina picui*)

Seen and identified during a roadside stop on 09/06. Probably overlooked elsewhere.

Scaled Dove (*Columbina squammata*)

Seen on the drive to Faz. De Serra Branca near Jeremoabo on 12/06 and at Res. Biologica de Saltinho on 16/06.

White-tipped Dove (*Leptotila verreauxi*)

Seen on the drive to Faz. de Serra Branca near Jeremoabo on 12/06.

PSITTACIFORMES: Psittacidae

LEAR'S MACAW (*Anodorhynchus leari*) **Endemic Critically Endangered**

Several pairs of this endangered parakeet seen flying around the spectacular red sandstone cliffs of their roost site at Faz. de Serra Branca on 12/06. Another couple of pairs seen flying to and from their feeding grounds from the fazenda gate and one immature bird perched at the side of one of the trails.

Blue-winged Macaw (*Primolius maracana*)

Poor views of a couple of birds at Faz. de Serra Branca on 12/06.

Red-shouldered Macaw (*Diopsittaca nobilis*)

A small flock flying low over the Serra do Ouro Research Station near Murici on 14/06.

Blue-crowned Parakeet (*Aratinga acuticaudata*)

Many birds circling around the sandstone cliffs at the Faz. de Serra Branca on 12/06.

Jandaya Parakeet (*Aratinga jandaya*) **Endemic**

Eight of these spectacular parakeets perched on a dead tree near the entrance to Bananeira Forest on 14/06.

Caatinga (Cactus) Parakeet (*Aratinga cactorum*) **Endemic**

Small family parties seen at various roadside locations on 09, 10 & 12/06.

Grey-breasted Parakeet (*Pyrrhura griseipectus*) **Endemic Critically Endangered**

Pyrrhura leucotis (Sibley and Monroe 1990, 1993) has been split into *P. leucotis*, *P. pfrimeri* and Grey-breasted Parakeet *P. griseipectus*. A family group of six Grey-breasted Parakeet watched returning and going to their roosting hole in the privately owned forest at Baturite on 08/06.

Blue-winged Parrotlet (*Forpus xanthopterygius*)

Small numbers of this engaging parrotlet seen on several dates together with a pair feeding young in the grounds of the hotel at Baturite on 08/06.

Yellow-chevroned Parakeet (*Brotogeris chiriri*)

A small group in the privately owned and protected forest at Baturite on 08/06

Blue-fronted Parrot (*Amazona aestiva*)

Several birds observed perched in the caatinga leading to the Lear's roost site at Faz. de Serra Branca on 12/06.

CUCULIFORMES: Cuculidae

Dark-billed Cuckoo (*Coccyzus melacoryphus*)

Seen in the tangled undergrowth bordering the track in the hotel grounds at Baturite on 09/06.

Squirrel Cuckoo (*Piaya cayana*)

Seen Baturite 08/06, Bananeira Forest 13 & 14/06 and at Res. Biológica de Saltinho 16/06.

Smooth-billed Ani (*Crotophaga ani*)

Common

Guira Cuckoo (*Guira guira*)

Common

Striped Cuckoo (*Tapera naevia*)

This vocal but difficult to see species seen in the grounds of the Quilombo Park Hotel on 14/06

STRIGIFORMES: Strigidae

Spectacled Owl (*Pulsatrix perspicillata*)

One bird calling near our bungalow in the grounds of the hotel at Baturite on 08/06.

Burrowing Owl (*Athene cunicularia*)

A single bird seen along the tracks through the canefields at dusk at Murici on 13/06.

CAPRIMULGIFORMES: Caprimulgidae

Pauraque (*Nyctidromus albicollis*)

A few birds seen along the tracks through the canefields at dusk at Murici on 13/06.

Pygmy Nightjar (*Caprimulgus hirundinaceus*) **Endemic**

Wonderful views of this difficult species at their daytime roost in some rocky outcrops on a private fazenda near Morada Nova on 09/06. One nesting pair with 2 eggs laid more or less directly onto the baking hot rocks.

APODIFORMES: Apodidae

Sick's Swift (*Chaetura meridionalis*)

2 or 3 birds over the entrance to the Bananeira Forest on 10/06

Fork-tailed Palm-Swift (*Tachornis squamata*)

Several birds zipping around above a roadside marsh near Quixada on 09/06.

TROCHILIFORMES: Trochilidae

Rufous-breasted (Hairy) Hermit (*Glaucis hirsuta*)

Seen feeding on heliconias in the grounds of the hotel at Baturite on 08&09/06.

Planalto Hermit (*Phaethornis pretrei*)

Observed in the streamside vegetation at the Araja Water Park on 10/06.

Reddish Hermit (*Phaethornis ruber*)

Seen on 14/06 at Faz. Bananeira, Murici.

Sombre Hummingbird (*Campylopterus currochloris*) **Endemic**

In the grounds of the Quilombo Parque Hotel in União dos Palmares on 13/06.

Swallow-tailed Hummingbird (*Eupetomena macroura*)

Seen at Brasília Airport as we waited for the delayed flight to Fortaleza on 07/06 and in the caatinga at Faz. de Serra Branca on 12/06.

Black Jacobin (*Florisuga fuscus*)

A couple of birds in the Bananeira Forest near Murici on 13/06.

Glittering-bellied Emerald (*Chlorostilbon aureoventris*)

In the degraded caatinga near the Araripe National Forest on 10/06.

Fork-tailed Woodnymph (*Thalurania furcata*)

Seen on the trail near our bungalow in the grounds of the hotel at Baturite on 08/06.

White-chinned Sapphire (*Hylocharis cyanus*)

On the Trilha do Vale at Baturite on 08/06

Glittering-throated Emerald (*Amazilia fimbriata*)

On the trail next to the IBAMA building at Araripe N.F. on 11/06

Stripe-breasted Starthroat (*Helimaster squamosus*) **Endemic**

A female seen near the Lears Macaw roost site at Faz. De Serra Branca on 12/06.

CORACIIFORMES: Alcedinidae

Ringed Kingfisher (*Ceryle torquata*)

Seen on 09&11/06 at roadside ponds and marshes as we drove across N.E. Brazil

Amazon Kingfisher (*Chloroceryle amazona*)

Seen on 09&11/06 at roadside ponds and marshes as we drove across N.E. Brazil

PICIFORMES: Galbulidae

Rufous-tailed Jacamar (*Galbula ruficauda*)

In the grounds of the Quilombo Parque Hotel in União dos Palmares on 13/06.

PICIFORMES: Bucconidae

Spot-backed Puffbird (*Nystalus maculatus*)

A couple of birds perched on wires as we drove through the vast Brazilian countryside on 09/06; another near Bananeira Forest on 14/06 and at Res. Biológica da Slatinho on 16/06.

PICIFORMES: Ramphastidae

Lettered Aracari (*Pteroglossus inscriptus*)

Several of this species on the trail through Bananeira Forest on 14/06.

Black-necked Aracari (*Pteroglossus aracari*)

Several of this species around the Serra do Ouro Ecological Station on 14/06.

Gould's Toucanet (*Selenidera gouldii*)

Stunning views of a pair calling and displaying from the trail in the hotel grounds at Baturite on 08/06. The birds also showed well the following morning through the windblown mist.

PICIFORMES: Picidae

Golden-spangled Piculet (*Picumnus exilis*)

Seen at Serra da Ouro Ecological Station on 14/06 to complete a clean sweep of the piculets.

Spotted Piculet (*Picumnus pygmaeus*) **Endemic**

This charming species seen from the roadside on 10/06 at the far edge of the Chapada do Araripe as it descends into Pernambuco.

Tawny Piculet (*Picumnus fulvescens*) **Endemic Near-threatened**

At the edge of the Araripe N.F. near the IBAMA HQ on 11/06.

Ochraceous Piculet (*Picumnus limae*) **Endemic Vulnerable**

This splendid piculet seen from the trail in the hotel grounds at Baturite on 08/06.

White Woodpecker (*Melanerpes candidus*)

Flight views only during the drive near to Quixada on 09/06.

Little Woodpecker (*Veniliornis passerinus*)

Seen from the trail in the hotel grounds at Baturite on 08/06.

Red-stained Woodpecker (*Veniliornis affinis*)

On the trail at Bananaeira Forest on 14/06 and at Res. Biologica de Saltinho 16/06.

Golden-green Woodpecker (*Piculus chrysochloros*)

A female in the caatinga at Araripe N.F. on 10/06

Blond-crested Woodpecker (*Celeus flavescens*)

This splendid woodpecker seen from the trail in the hotel grounds at Baturite on 08/06.

PASSERIFORMES: Furnariidae

Pale-legged Hornero (*Furnarius leucopus*)

Fairly common – seen almost daily in small numbers.

Wing-banded (Band-tailed or Tail-banded) Hornero (*Furnarius figulus*) **Endemic**

Much less common than preceding species; seen only in the hotel grounds at Baturite on 08/06.

Sooty-fronted Spinetail (*Synallaxis frontalis*)

Seen only in the hotel grounds at Baturite on 08/06.

Red-shouldered Spinetail (*Synallaxis hellmayri*) **Endemic Near-threatened**

Seen with some difficulty, in the degraded caatinga near Araripe N.F. on 10/06.

Grey-headed Spinetail (*Cranioleuca semicinerea*) **Endemic**

Seen only in the hotel grounds at Baturite on 08/06.

Yellow-throated (chinned) Spinetail (*Certhiaxis cinnamomea*)

Seen only in the hotel grounds at Baturite on 08/06.

Common (Rufous-fronted or Plain) Thornbird (*Phacellodomus rufifrons*)

Nesting pairs at the degraded carrasco at the edge of the Araripe N.F. on 10/06 and in the grounds of the Quilombo Parque hotel in União dos Palmares on 13/06.

Caatinga Cacholote (*Pseudoseisura cristata*) **Endemic**

Great views of this classy bird at a roadside stop on the road from Baturite to Quixada on 09/06 and on the road to Faz. De Serra Branca on 12/06.

Great Xenops (*Megaxenops paraguayae*) **Endemic**

Wonderful views of two birds on the edge of the caatinga at Araripe NF on 10/06

Plain Xenops (*Xenops minutus*)

On the trail inside the Bananeira forest on 13&14/06.

Rufous-breasted Leaf-tosser (*Sclerurus scansor*)

We understand that the subspecies found in NE Brazil will almost certainly be split as *Sclerurus cearensis* but as yet no English name has yet been proposed. Two birds on the Trilha do Vale at Baturite on 08/06 and another on the trail in the grounds of the Alto do Serra hotel on 09/06.

PASSERIFORMES: Dendrocolaptidae

Plain-brown Woodcreeper (*Dendrocincla fuliginosa*)

Observed attending a small antswarm at the edge of the Bananeira Forest on 14/06

Olivaceous Woodcreeper (*Sittasomus griseicapillus*) **H.**

Heard only at Res. Biológica de Saltinho 16/06.

Planalto Woodcreeper (*Dendrocolaptes platyrostris*)

On private land at the Grey-breasted Parakeet site at Baturite on 08/06.

Lesser Woodcreeper (*Xiphorhynchus fuscus*)

This disjunct Atlantic Forest form or subspecies "atlanticus" is a candidate for future split. Seen from the trail in the hotel grounds at Baturite on 08/06.

Straight-billed Woodcreeper (*Xiphorhynchus picus*)

On the Trilha do Vale trail at Baturite on 08/06.

Narrow-billed Woodcreeper (*Lepidocolaptes angustirostris*)

Seen in open country near the entrance to Faz. De Serra Branca on 12/06

Red-billed Scythebill (*Campylorhynchus trochilirostris*)

Heard in a couple of forest locations; seen only in the caatinga at Faz. De Serra Branca 12/06

PASSERIFORMES: Thamnophilidae

Great Antshrike (*Taraba major*)

On the trail in the grounds of the Alto do Serra Hotel on 09/06 and in the grounds of the Quilombo Parque hotel in União dos Palmares on 13/06.

Silvery-checked Antshrike (*Sakesphorus cristatus*) **Endemic**

In the dense caatinga at Araripe NF on 10/06.

Caatinga Barred Antshrike (*Thamnophilus capistratus*)

This species is a recent split from Barred Antshrike (*Thamnophilus doliatus*) and while the Latin name is conformed there is, as yet, no English name although it may be called Caatinga Barred Antshrike. Seen at Chapada do Araripe on 10/06.

White-shouldered Antshrike (*Thamnophilus aethiops*)

A single bird of the subspecies "distans" seen at the ruined house at the end of the trail at Bananeira on 14/06.

Planalto Slaty Antshrike (*Thamnophilus pelzelni*) **Endemic**

In the dense caatinga at Araripe NF on 10/06.

Rufous-winged Antshrike (*Thamnophilus torquatus*)

A single bird in the scrubby degraded caatinga near Araripe NF on 10/06.

Variable Antshrike (*Thamnophilus caerulescens*)

A pair seen on the trail in the grounds of the Alto do Serra Hotel on 08&09/06. These birds are of the subspecies *Th.caerulescens cearensis*

Cinereous Antshrike (*Thamnomanes caesius*)

Seen attending an antswarm at the start of the trail through the Bananeira Forest on 14/06.

Plain Antvireo (*Dysithamnus mentalis*)

On the trail in the grounds of the Alto do Serra Hotel on 08&09/06 and on the trail through the Bananeira Forest on 14/06.

White-flanked Antwren (*Myrmotherula axillaris*)

2 or 3 single birds along the trail at Bananeira Forest on 13&14/06.

Alagoas Antwren (*Myrmotherula snowi*) **Endemic Critically Endangered**

A very vocal pair seen in a small mixed flock on the trail at Bananeira Forest on 13/06 was a piece of very good fortune as we were able to observe, record and photograph this rare species.

Stripe-backed Antbird (*Myrmorchilus strigilatus*)

Another good species, this skulker showed well in the degraded caatinga at Araripe NF. on 10/06

Black-capped Antwren (*Herpsilochmus atricapillus*)

On the trail from our hotel in Baturite on 08/06, at the edge of the caatinga at Araripe NF on 10/06 and at Bananeira Forest on 13/06.

Caatinga Antwren (*Herpsilochmus sellowi*) **Endemic Near-threatened**

Formerly considered conspecific with Pileated Antwren (*Herpsilochmus pileatus*). Several birds heard and seen in the dense caatinga at Araripe NF on 10/06.

Pectoral Antwren (*Herpsilochmus pectoralis*) **Endemic Vulnerable**

This very local and hard to find species was a great bonus in the pristine caatinga at the Lears Macaw roost site at Faz. De Serra Branca on 12/06.

Rufous-winged Antwren (*Herpsilochmus rufimarginatus*)

First seen on the trail in the grounds of the Alto do Serra Hotel on 09/06 and then on the trail at Bananeira forest on 13/06.

White-fringed Antwren (*Formicivora grisea*)

Poor views at the edge of the Bananeira Forest on 13/06, but a pair seen much better in the grounds of the Quilombo Parque Hotel in União dos Palmares on 13/06.

Black-bellied Antwren (*Formicivora melonogaster*)

Several birds heard and seen in the dense caatinga at Araripe NF on 10/06.

Orange-bellied Antwren (*Terenura sicki*) **Endemic Critically Endangered**

Neck breaking views of a pair of this rare antwren high in the canopy at the very end of the trail in the Bananeira Forest on 14/06

Willis's Antbird (*Cercomacra laeta*) **Endemic**

This vocal species seen well in the Bananeira Forest on 14/06 and again at Res. Biologica de Saltinho on 16/06.

White-backed Fire-eye (*Pyriglena leuconota*)

3 or 4 birds attending an antswarm at the start of the trail through the Bananeira Forest on 14/06. Others heard on that trail.

Scalloped Antbird (*Myrmeciza ruficauda*) **Endemic Endangered**

Seemingly common at the Bananeira Forest with many birds calling on 13&14/06 although they were unresponsive to playback and proved very difficult to see well. One bird eventually seen well, far off the trail on 14/06.

PASSERIFORMES: Formicariidae

Short-tailed Antthrush (*Chamaeza campanisona*) H.

Heard calling in response to playback on the Trilha do Vale at Baturite on 08/06. Not pursued.

White-browed Antpitta (*Hylopezus ochroleucus*) **Endemic Near-threatened**

Extraordinary views of this antpitta performing its “balance da bunda” mating ritual in response to playback in the dense caatinga at Araripe NF. on 10/06

PASSERIFORMES: Conopophagidae

Rufous Gnateater (*Conopophaga lineata*)

The form of Rufous Gnateater found in NE Brazil is of the subspecies “cearae” which, in the future, is likely to be split as Caatinga Gnateater (*Conopophaga cearae*). First seen on the trail in the grounds of the Alto do Serra Hotel on 09/06 and at the Hotel Remanso de Serra later the same morning.

Black-checked Gnateater (*Conopophaga melanops*)

A couple of pairs seen on the trail at Bananeira Forest on 13&14/06

PASSERIFORMES: Cotingidae

Black-headed Berryeater (*Carpornis melanocephalus*) **Endemic Vulnerable**

A single bird responded to imitations of its call on the trail at Bananeira on 13/06

Screaming Piha (*Lipaetus vociferans*) H.

Heard on 13&14/06 at Bananeira Forest. Not pursued.

White-winged Cotinga (*Xipholena atropurpurea*)

Poor views of a female of this species at on the trail at Bananeira on 13/06.

PASSERIFORMES: Pipridae

Band-tailed Manakin (*Pipra fasciicauda*)

The disjunct population in NE Brazil is of the subspecies “scarlatina” which may in time become a full species split from its close relative in Amazonia. Seen on 08/06 on the Trilha do Vale Trail at Baturite and also in the privately protected forest there.

Red-headed Manakin (*Pipra rubrocapilla*)

Seen on the trail at Bananeira on 13/06. Also at Res. Biologica da Saltinho on 16/06.

Araripe Manakin (*Antilophia bokermanni*) **Endemic Critically Endangered**

It seems astonishing that such a bird remained undiscovered until 1996 but it did. Critically endangered because of pressure upon its very specific streamside habitat requirements within its tiny area of distribution which is about 60kms along the base of Chapada do Araripe. Seen along the quiet and protected stream within the noisy Araja Water Park near Crato on 10/06.

Blue-backed Manakin (*Chiroxiphia pareola*)

Seen on the trail at Bananeira on 13/06

White-bearded Manakin (*Manacus manacus*)

Up to a dozen lekking birds seen on the trail at Bananeira on 13/06

Thrush-like Schiffornis (*Schiffornis turdinus*) H.

Heard along the trail at Bananeira Forest on 13&14/06. Not pursued.

Pale-bellied Tyrant-Manakin (*Neopelma pallescens*)

On the edge of the good caatinga at Araripe NF. on 09/06.

PASSERIFORMES: Tyrannidae

Southern Beardless Tyrannulet (*Camptostoma obsoletum*)

In the grounds of the Quilombo Parque Hotel in União dos Palmares on 13/06.

Grey Elaenia (*Myiopagis caniceps*)

In the grounds of the Quilombo Parque Hotel in União dos Palmares on 13/06.

Greenish Elaenia (*Myiopagis viridicata*)

In the caatinga at Faz. De Serra Branca on 12/06.

Forest Elaenia (*Myiopagis gaimardii*)

Seen at Res. Biológica da Saltinho on 16/06.

Large Elaenia (*Elaenia spectabilis*)

In the grounds of the hotel at Baturite on 08/06

Yellow-bellied Elaenia (*Elaenia flavogaster*)

Fairly common.

White-crested Elaenia (*Elaenia albiceps*)

Two or three birds in the carrasco of Chapada do Araripe on 10/06.

Alagoas Tyrannulet (*Phylloscartes ceciliae*) **Endemic Endangered**

Two birds associating with the large mixed flock at the end of the trail at Bananeira on 14/06.

Planalto Tyrannulet (*Phyllomyias fasciatus*)

In the grounds of the hotel at Baturite on 08&09/06.

Slender-footed Tyrannulet (*Zimmerius gracilipes*)

In the grounds of the hotel at Baturite on 08&09/06 and the Trilha do Vale on 08/06.

Campo Suiriri (*Suiriri affinis*)

3 or 4 birds at the entrance to the Faz. De Serra Branca near Jeremoabo on 12/06

Lesser Wagtail-Tyrant (*Stigmatura napensis*)

We understand that the subspecies "bahia" found in NE Brazil is sometimes treated as a separate species. Two birds seen in the scrubby degraded caatinga at Araripe NF on 10/06.

Tawny-crowned Pygmy-Tyrant (*Euscarthmus meloryphus*)

Two birds seen in the scrubby degraded caatinga at Araripe NF on 10/06.

White-bellied Tody-Tyrant (*Hemitriccus grisepectus*)

A couple of birds on the trail at Bananeira Forest on 13/06.

Pearly-vented Tody-Tyrant (*Hemitriccus margaritaceiventer*)

From the road on the far side of the plateau Chapada do Araripe as it descends into Pernambuco on 10/06

Buff-breasted Tody-Tyrant (*Hemitriccus mirandae*) **Endemic Vulnerable**

Seen on the Trilha do Vale and in the private reserve at Baturite on 08/06.

Common Tody-Flycatcher (*Todirostrum cinereum*)

In the grounds of the Quilombo Parque Hotel in União dos Palmares on 13/06.

Yellow-olive Flycatcher (Flatbill) (*Tolmomyias sulphurescens*)

In the grounds of the Quilombo Parque Hotel in União dos Palmares on 13/06.

Yellow-breasted Flycatcher (Flatbill) (*Tolmomyias flaviventris*)

After hearing this species in virtually ever location visited finally seen in the grounds of the Quilombo Parque hotel in União dos Palmares on 13/06.

White-throated Spadebill (*Platyrinchus mystaceus*)

In the grounds of the hotel at Baturite on 08&09/06 and the trail in the Araripe NF next to the IBAMA HQ on 11/06.

Bran-coloured Flycatcher (*Myiophobus fasciatus*)

In the grounds of the Quilombo Parque Hotel in União dos Palmares on 13/06.

Black-tailed Flycatcher (*Myiobius atricaudus*)

On the trail in the Araripe N.F. next to the IBAMA HQ on 11/06.

Cliff Flycatcher (*Hirundea ferruginea*)

In the grounds of the Remanso Hotel do Serra at Baturite on 08/06

Fuscous Flycatcher (*Cnemotriccus fuscatus*)

Seen in the scrubby degraded caatinga at Araripe NF on 10/06.

Euler's Flycatcher (*Lathrotriccus euleri*)

Seen in the scrubby degraded caatinga at Araripe NF on 10/06.

White Monjita (*Xolmis irupero*)

A pair along the road from Crato to Jeremoabo on 11/06.

Velvety Black-Tyrant (*Knipolegus nigerimus*) **Endemic**

Something of a surprise with a single bird in the caatinga near the Lears Macaw roost site in Faz. de Serra Branca on 12/06

Black-backed Water-Tyrant (*Fluvicola albiventer*)

In the grounds of the Remanso Hotel at Baturite 08/06 and on the road to Quixada 09/06.

Masked Water-Tyrant (*Fluvicola nengeta*)

Seen in open country on the outskirts of Jeremoabo on 12/06.

White-headed Marsh-Tyrant (*Arundinicola leucocephala*)

Seen in a marsh on the outskirts of Quixada on 09/06.

Cattle Tyrant (*Machetornis rixosus*)

In a park in Crato on 11/06.

Greyish Mourner (*Rhytipterna simplex*) **H.**

Heard along the trail at Bananeira Forest on 14/06.

Short-crested Flycatcher (*Myiarchus ferox*)

In the grounds of the hotel at Baturite on 08&09/06.

Brown-crested Flycatcher (*Myiarchus tyrannulus*)

Seen in the carrasco of Chapada do Araripe 10/06 and at Faz. de Serra Branca on 12/06.

Great Kiskadee (*Pitangus sulphuratus*)

In the grounds of the Quilombo Parque Hotel in União dos Palmares on 13/06

Boat-billed Flycatcher (*Megarhynchus pitangua*)

In the grounds of the Quilombo Parque Hotel in União dos Palmares on 13/06.

Social Flycatcher (*Myiozetetes similis*)

Common.

Streaked Flycatcher (*Myiodynastes maculatus*)

Seen in the grounds of the hotel at Baturite on 12/06.

Piratic Flycatcher (*Legatus leucophaeus*)

In the grounds of the Quilombo Parque Hotel in União dos Palmares on 13/06.

Variagated Flycatcher (*Empidonomus varius*)

From the road on the far side of the plateau Chapada do Araripe as it descends into Pernambuco on 10/06.

Tropical Kingbird (*Tyrannus melancholicus*)

Common.

Green-backed Becard (*Pachyramphus viridis*)

In the grounds of the Quilombo Parque hotel in União dos Palmares on 13/06.

Crested Becard (*Pachyramphus validus*)

Seen in open country near the entrance to Faz. de Serra Branca on 12/06

PASSERIFORMES: Hirundinidae

Grey-breasted Martin (*Progne chalybea*)

In the grounds of the Remanso Hotel do Serra at Baturite on 08/06

Blue-and-white Swallow (*Notiochelidon cyanoleuca*)

In the grounds of the hotel at Baturite on 08/06.

White-winged Swallow (*Tachycineta albiventer*).

Two birds on the muddy bank of a small river near Morada Nova on 09/06.

Southern Rough-winged Swallow (*Stelgidopteryx ruficollis*)

Seen regularly over open country.

PASSERIFORMES: Motacillidae

Yellowish Pipit (*Anthus lutescens*)

In grasslands on the track to Bananeira Forest on 14/06.

PASSERIFORMES: Troglodytidae

Moustached Wren (*Thryothorus genibarbis*)

Fairly common, Baturite 08&09/06, Bananeira Forest 13&14/06 and Res. Saltinho 16/06.

Long-billed Wren (*Thryothorus longirostris*)

In the caatinga at Araripe NF on 10/06.

House Wren (*Troglodytes aedon*)

Fairly common.

PASSERIFORMES: Mimidae

Chalk-browed Mockingbird (*Mimus saturninus*)

Common.

PASSERIFORMES: Turdidae

Rufous-bellied Thrush (*Turdus rufiventris*)

Seen in the gardens of the hotel at Baturite on 08/06.

Pale-breasted Thrush (*Turdus leucomelas*)

In the grounds of the hotel at Baturite on 08/06.

Creamy-bellied Thrush (*Turdus amaurochalinus*)

Seen at the Faz. de Serra Branca near Jeremoabo on 12/06

White-necked Thrush (*Turdus albicollis*)

Seen and heard at Bananeira Forest on 13&14/06.

PASSERIFORMES: Polioptilidae

Long-billed Gnatwren (*Ramphocaenus melanurus*)

Two or three birds seen and heard along the trail at Bananeira Forest on 13&14/06.

Tropical Gnatcatcher (*Polioptila plumbea*)

In the caatinga of Araripe NF on 10/06

PASSERIFORMES: Corvidae

White-naped Jay (*Cyanocorax cyanopogon*) **Endemic**

Along the road that runs through the Araripe NF. on 11/06 and at Bananeira Forest on 13/06.

PASSERIFORMES: Vireonidae

Red-eyed Vireo (*Vireo olivaceus*)

In the grounds of the Quilombo Parque Hotel in União dos Palmares on 13/05.

Grey-eyed Greenlet (*Hylophilus amaurocephalus*) **Endemic**

Seen in the scrubby degraded caatinga at Araripe NF on 10/06.

Rufous-browed Peppershrike (*Cyclarhis gujanensis*)

In the grounds of the Quilombo Parque hotel in União dos Palmares on 13/06.

PASSERIFORMES: Parulidae

Tropical Parula (*Parula pitiayumi*)

Final bird of the trip at Res. Biológica da Saltinho on 16/06

Golden-crowned Warbler (*Basileuterus culicivorus*)

In the grounds of our hotel at Baturite on 08&09/07 and at Res. Biológica de Saltinho 16/06.

Flavescent Warbler (*Basileuterus flaveolus*)

Seen in the caatinga near the Lears Macaw roost site in Faz. de Serra Branca on 12/06.

PASSERIFORMES: Coerebidae

Bananaquit (*Coereba flaveola*)

Seen regularly in forest and forest edge.

PASSERIFORMES: Thraupidae

Chestnut-vented Conebill (*Conirostrum speciosum*)

Seen in the caatinga near the Lears Macaw roost site in Faz. de Serra Branca on 12/06.

Cinnamon Tanager (*Schistochlamys ruficapillus*)

In the caatinga of Araripe NF on 10/06.

Scarlet-throated Tanager (*Compsothraupis loricata*) **Endemic**

A small flock feeding in the caatinga at Faz. de Serra Branca on 12/06.

Guira Tanager (*Hemithraupis guira*)

In the grounds of the Quilombo Parque Hotel on 13/06, then at Bananeira 13&14/06.

Yellow-backed Tanager (*Hemithraupis flavicollis*)

In mixed flocks on the trail at Bananeira Forest on 13&14/06.

Hooded Tanager (*Nemosia pileata*)

In mixed flocks at Res. Biológica de Saltinho 16/06

Flame-crested Tanager (*Tachyphonus cristatus*)

In mixed flocks on the trail at Bananeira Forest on 13&14/06.

Brazilian Tanager (*Ramphocelus bresilius*) **Endemic**

In the forest edge at the entrance gate at Res. Biológica de Saltinho 16/06.

Sayaca Tanager (*Thraupis sayaca*)

Seen 09/06 at Morada Nova.

White-lined Tanager (*Tachyphonus rufus*)

In the caatinga at Faz. de Serra Branca on 12/06 and at Res. Biológica de Saltinho 16/06.

Palm Tanager (*Thraupis palmarum*)

Common

Purple-throated Euphonia (*Euphonia chlorotica*)

On the trail in the Araripe N.F. next to the IBAMA HQ on 11/06.

Violaceous Euphonia (*Euphonia violacea*)

In the grounds of the hotel at Baturite on 08/06.

Seven-coloured Tanager (*Tangara fastuosa*) **Endemic Vulnerable**

A single bird high in the canopy with a mixed flock at the end of the trail in Bananeira Forest on 14/06 was the only record.

Red-necked Tanager (*Tangara cyanocephala*)

In the grounds of the hotel at Baturite on 08/06.

Burnished-buff Tanager (*Tangara cayana*)

Seen regularly throughout the trip.

Opal-rumped Tanager (*Tangara velia*)

A pair in the canopy with a mixed flock at the end of the trail in Bananeira Forest on 14/06

Blue Dacnis (*Dacnis cayana*)

In the grounds of the hotel at Baturite on 08/06 and at Res. Biologica de Saltinho 16/06.

Green Honeycreeper (*Chlorophanes spiza*)

In a mixed flock at the end of the trail in Bananeira Forest on 14/06.

Swallow-Tanager (*Tersina viridis*)

A small group at the Serra do Ouro Research Station on 14/06

PASSERIFORMES: Emberizidae

Pileated Finch (Grey P-F) (*Coryphospingus pileatus*)

In the caatinga at Araripe NF on 10/06.

Blue-black Grassquit (*Volatinia jacarina*)

Seen regularly throughout the trip.

Yellow-bellied Seedeater (*Sporophila nigricollis*)

In the grounds of the hotel at Baturite on 08/06 and at Res. Biologica de Saltinho 16/06.

White-throated Seedeater (*Sporophila albogularis*)

In scrubby grassland on the outskirts of Jeremoabo on 12/06

Grassland Yellow-Finch (*Sicalis luteola*)

At a roadside stop between Baturite and Chapada do Araripe on 09/06.

Red-cowled Cardinal (*Paroaria dominicana*) **Endemic**

Seen regularly throughout the trip.

Pectoral Sparrow (*Arremon taciturnus*)

In the grounds of the hotel at Baturite on 08&09/06.

Grassland Sparrow (*Ammodramus humeralis*)

In the degraded caatinga and scrubland near Araripe N.F. on 10/06.

Rufous-collared Sparrow (*Zonotrichia capensis*)

Seen regularly throughout the trip.

PASSERIFORMES: Cardinalidae

Buff-throated Saltator (*Saltator maximus*)

On the trail in Bananeira Forest on 13/06.

Black-throated Saltator (*Saltator atricollis*)

In the caatinga at Faz. de Serra Branca on 12/06.

PASSERIFORMES: Icteridae

Chestnut-capped Blackbird (*Agelaius ruficapillus*)

Many at the marsh near Quixada on 09/06 with others near Faz. de Serra Branca on 12/06

White-browed Blackbird (*Sturnella supercilialis*)

Regular along the roadside as crossed the vast spaces of NE Brazil.

Bay-winged Cowbird (*Molothrus badius*)

A couple of flocks on the drive between Baturite and Crato on 09/06.

Shiny Cowbird (*Molothrus bonariensis*)

Seen occasionally along the roadside as crossed the vast spaces of NE Brazil.

Epaulet Oriole (*Icterus cayanensis*)

In the grounds of the hotel at Baturite on 08&09/06.

Red-rumped Cacique (*Cacicus haemorrhous*)

In the grounds of the Serra do Ouro Research Station on 14/06

Campo Troupial (Oriole) (*Icterus jamacaii*)

A couple of birds at Morada Nova on 09/06 and at Faz. de Serra Branca on 12/06.

PASSERIFORMES: Passeridae

House Sparrow (*Passer domesticus*)

In the grounds of the hotel at Baturite on 08&09/06.

Additional Species seen or Heard by Ciro Albano

Channel-billed Toucan at Banacira Forest, White-winged Becard heard in the hotel at Murici,

Ultramarine Grosbeak heard in Chapada do Araripe.
