### 12/19/2004 9:00 Celedin - Balsas road

Sunny,20-30\*

This day we descended directly into the Marañon valley and started birdwatching along entrance road of Hacienda Limon and along the east bank of the Marañon river near Balsas. Furthermore, we found out we did not have the right tape recording, which did not help much either. Temperature in the Marañon Valley was really high making birding around noon rather unpleasant, with little bird activity
