Greater Honeyguide *Indicator indicator*

04/08/2005 - Lake Mburo NP: lakeside track + camping area - 1 bird taped in near the tented camp and seen very well.

Willcock's Honeyguide *Indicator willcocksi*

19/07/2005 - Budongo: Royal Mile - NC - Possibly this species - 1 silent honeyguide high up in the canopy in the Royal Mile was possibly this species.
30/07/2005 - Bwindi IF: Buhoma main trail - ssp willcocksi - 2 honeyguides along the trail had no obvious laral or malar stripes, and responded very actively to the tape playback of the sound of Willcock's Honeyguide. Quite a boring family, really.

Least Honeyguide *Indicator exilis*

31/07/2005 - Bwindi IF: Ruhija - NC - 1 honeyguide seen near the research centre wasn't seen well

enough to be 100% sure about the identification. It appeared to have a loreal stripe, and according to other local birders, Least Honeyguide is the most likely species there.

Dwarf Honeyguide *Indicator pumilio* **Near-threatened (NT)** **Near-endemic**

01/08/2005 - Bwindi IF: Mubwindi swamp trail - NC - Possibly this species - Yet another frustrating honeyguide observation: 1 fly-by honeyguide at the Mubwindi swamp was very probably this species.
